Professional Summary

Results-driven UI/UX Engineer with hands-on experience in translating Figma prototypes into responsive, production-ready web interfaces using React.js and modern CSS. Skilled in user-centered design, wireframing, prototyping, and full-stack web deployment. Proven ability to independently deliver live client projects on time, with a portfolio of 10+ hosted websites and 20+ Figma design concepts.

Technical Skills

UI Development	HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Bootstrap, Tailwind CSS
UX & Design	Figma, Wireframing, Prototyping, User Flows, Responsive UI Design, Design Systems
Backend & Database	Node.js, Express.js, PHP, MongoDB, MySQL
CMS & Deployment	WordPress, Domain Hosting, Website Deployment & Maintenance
Programming	Python, OpenCV, Tkinter
Tools	Git, GitHub, Canva, MS Office

Professional Experience

UI Engineer Intern

Wrenix Pvt Ltd (Remote)

February 2025 – Present

www.wrenix.com

- Developed and delivered production-ready UI components for 5+ client web applications using React.js, HTML5, and CSS3, consistently meeting project deadlines and client specifications.
- Converted high-fidelity Figma prototypes into fully responsive, cross-browser compatible frontend code, streamlining the design-to-development handoff process through close collaboration with the engineering team.
- Independently built and deployed client websites for **Tissa Fitness** and **Travelly Lanka** using WordPress, including custom layouts, plugin configuration, and post-launch maintenance – delivered within tight timelines.
- Improved UI accessibility and user workflow efficiency across 3+ live projects by auditing layouts and applying modern UX best practices, including consistent component spacing and navigation hierarchy.
- Maintained code quality through professional Git workflows, participating in peer code reviews and adhering to agreed web standards throughout the development lifecycle.

Selected Individual Projects

Budget Safari – Tourism Landing Page

bugetsafari.com

- Designed and deployed a fully responsive landing page optimized for high-conversion client inquiries, featuring clear CTAs and mobile-first layout principles.

Yala Yewon Tours – Tourism Booking Platform

yalayewontours.com

- Built an interactive booking web application with dynamic visual content and streamlined user navigation, improving overall user flow and on-page engagement.

Happiness Villa Yala – Hospitality Website

happinessvillayala.lk

- Designed responsive booking layouts and high-fidelity UI to enhance digital conversion rates and guest inquiry experience.

Sky Hotel Nuwara Eliya – Hospitality Website

skyhotelnuwaraeliya.lk

- Designed a modern showcase website using clean UI layout principles, optimized for both desktop and mobile viewports with fast load performance.

Saman Motors – Web-Based POS System

- Developed a secure, web-based Point of Sale platform handling real-time inventory updates and transactional workflows with a user-friendly dashboard interface.

UI/UX Design Portfolio – 20+ Figma Concepts

- Conceptualized and delivered 20+ interface designs including dashboards, mobile app prototypes, and e-commerce layouts, demonstrating depth in user-centered design thinking.

Team-Based Projects

FastX – E-commerce & POS Connected Platform

fastx.lk

- Contributed to frontend UI refinement and design system consistency for a connected e-commerce and POS platform, collaborating with a cross-functional development team.

Evergreen Sinharaja – Community Tourism Website

- Implemented responsive layout improvements and modern visual updates for a nature-focused community tourism site, enhancing readability and mobile usability.

POS System – Team Development Project

- Collaborated within a cross-functional team on modular UI component development, focusing on functional design consistency and clean user interaction patterns.

Education

BSc (Hons) in Information Technology – Specialising in Interactive Media	2022 – Present
Sri Lanka Institute of Information Technology (SLIIT)	Malabe, Sri Lanka
Physical Science – Mathematics Stream (A/L)	2006 – 2020
St. Thomas’ College, Matara	Sri Lanka

Certifications

- **Web Design and Python** – University of Moratuwa
- **Diploma in Computer Science** – National Programme (NVQ)

Languages

- **Sinhala:** Native / Mother Tongue
- **English:** Fluent
